

COR-ACC910

OUTDOOR WEATHER PROOF PROXIMITY WIEGAND READER

The COR-ACC910 Wiegand proximity card reader is an advanced access control device in a silver-tone ABS case that uses a built-in bi-color LED to provide users with a visual indication that a card has been successfully scanned. It also has a min transducer that emits an audible “beep” when a successful operation is performed. Use the COR-ACC900, COR-ACC950, COR-ACC995 and COR-ACC10000 access controllers for anti-pass back. It is sealed for outdoor use and has an attached cable and connector that makes installation easy and simple

SPECIFICATIONS

| | |
|-------------------------|--|
| Card Reader Range | 10 -18cm (125kHz) |
| Color | Silver-grey |
| Request to Exit | Supported |
| Anti-Pass Back | Multi-door when using COR-ACC!000 |
| Maximum # users | 65,536 (card only) 1024 using combination of card and PIN (using attached controller or peripheral keypad) |
